

OTS Employees Federal Credit Union's Security Statement

OTS Employees Federal Credit Union is committed to online security. When you use any of the credit unions' on-line services, your information is encrypted using the latest in Secure Socket Layer (SSL) technology. To ensure SSL technology, you must have a browser that supports 128-bit encryption security.

If you are unable to access any of our on-line products, please call 848-4408 during regular credit union hours.
